History and origin of EDELWEISS NATURE “Your Life’s Power”

How did the EDELWEISS natural cosmetics line come about?

The EDELWEISS Mountain Resort has inspired pharmacist & beautician **Monika Wirnsberger-Machner** as a holiday destination for years. Many passionate conversations with hostess Karin Hettegger on regional medicinal herbs, holistic well-being as well as an awareness of high-quality values led to the idea and development of this in-house cosmetics line.

How did the EDELWEISS natural cosmetics line come about?

Closeness to nature and skin-invigorating care are reflected in these high-quality cosmetic formulations with selected ingredients from regional alpine herbs for sensitive skin needs. The three luxurious „EDELWEISS Gold“ cosmetics contain highly concentrated active ingredients and nutrients for long-lasting wrinkle reduction and intensive revitalisation of the skin. **Monika Wirnsberger-Machner** (www.waasen-apotheke.at) creates our EDELWEISS cosmetic products with special pharmaceutical and cosmetic knowledge, and all done by hand. Exclusively available from us, these high-quality products are part of our innovative treatment range especially for you – our guests.
